Annual ID Check Up

proprietary solution to identity errors and
fraud on your public records + reports

Rather than implement an identity monitoring service without knowing you have already been compromised, it is important to review your information annually. By accessing your records and reporting under your rights protected by the Fair Credit Reporting Act + Fair and Accurate Credit Transaction Act you'll be empowered with valuable data.

ID360 takes proactive measures to ensure your public records and identity are protected.

- + Access over a dozen personal records and reports
- + Review data not accessible by traditional monitoring services
- + Conduct your own personal background check each year
- + Detect errors and fraud that would only be known to you
- + Detect fraudulent medical payouts resulting in altered records

This proactive approach provides you with access to the most comprehensive consumer reports available on an annual basis. After receiving each report you'll be able to quickly identify errors on your public records and background reports that would only be identifiable to you. Each annual review will also give you the opportunity to identify potential fraud and criminal activity.

Your Annual ID Check Up will uncover information that is not available from credit monitoring or competing identity theft monitoring services.

ACCESS YOUR ANNUAL REPORTS

Federal Consumer Protection Laws have been enacted to promote accuracy, fairness, and privacy of consumer information contained in the files of consumer reporting agencies. It was intended to protect consumers from the willful and/or negligent inclusion of inaccurate information in their credit reports.

To learn more about plan options, call 888.59.ID360 or email info@ID360.com.

WHY IS ID360's ANNUAL ID CHECK UP SO IMPORTANT?

Knowing whether or not your identity has already been compromised is the key to ensuring successful prevention, detection and recovery from identity theft.

CREDIT REPORTING

review all three major credit bureaus and others that you may have never reviewed

Review all of the credit reports that lenders, employers and others may view.

Make sure you aren't overpaying or being denied for loans, credit and insurance benefits.

Uncover errors or fraud that could cost you thousands in lost employment opportunities.

SPECIAL CONSUMER REPORTS

protect your data and review your background check and other reports that may contain errors or fraud

Uncover medical errors that could save you or a member of your family's life some day.

Find out what everyone else is seeing when they pull your background check.

Know for sure that no one is using your identity to purchase or rent properties.

PUBLIC RECORDS

examine other pertinent public data in your files that may have already been compromised

Unlock valuable public data that could tarnish you or your family's good name.

Ensure your family hasn't been compromised which could result in diminished financial aid and assistance.

Discover errors that have been made a permanent part of your public records.

Take advantage of your federal rights and ensure your identity and public records haven't already been compromised.

Simple and effective measures you can take each year to protect your identity which could save you time, money, or even save your life.
